Harry Suiker Solid surface is een mengsel van aluminiumtrihydraat (natuurlijke minerale poeders verkregen uit bauxiet) en PMMA (Polymethyl metacrylaat) harsen gemengd met pigmenten. Dit maakt het een duurzaam en praktisch materiaal en geschikt voor bijna elke vormgeving. Dankzij de bijna onzichtbare naden krijgen vuil en bacteriën nauwelijks kans zich op te hopen. Niet voor niets passen interieurarchitecten en designers steeds vaker Solidsurface toe in hun ontwerpen. En zijn gebruikers van dit bijzondere materiaal unaniem lovend.

	283615	SOLIDSTEEL	Cup in Glass Size:D65xH95mm	10,8 €	0,4	

Harry Suiker Solid surface is een mengsel van aluminiumtrihydraat (natuurlijke minerale poeders verkregen uit bauxiet) en PMMA (Polymethyl metacrylaat) harsen gemengd met pigmenten. Dit maakt het een duurzaam en praktisch materiaal en geschikt voor bijna elke vormgeving. Dankzij de bijna onzichtbare naden krijgen vuil en bacteriën nauwelijks kans zich op te hopen. Niet voor niets passen interieurarchitecten en designers steeds vaker Solidsurface toe in hun ontwerpen. En zijn gebruikers van dit bijzondere materiaal unaniem lovend.
